

Playground Safety For Kids!

Safety Tips

Age Appropriate

John Says:

" You can get hurt if you play on equipment that is not made for you. Some equipment is made for children that are ages 2-5 and some for ages 5-12. If smaller children play on the older equipment, they can get hurt. Older children should not play on equipment that is made for 2-5 year olds".

Things to Remember!

Different equipment is made for children of different ages.

Preschoolers (2-5 year olds) should play on equipment that is 6 feet and under.

School-age children (5-12 year olds) should play on equipment that is 8 feet and under.

It is important to know that not all playground equipment is made for every child. Children ages 2-5 should play on equipment that meets their developmental needs. Children ages 5-12 should play on equipment that meets their developmental needs.

Test Your Knowledge!

1. How old should children be to play on this piece of equipment?

- A 2-5
- B 5-12
- C All children
- No children should play here

2. How old should children be to play on this piece of equipment?

- A 2-5
- B 5-12
- C All children
- No children should play here

3. How old should children be to play on this piece of equipment?

- A 2-5
- B 5-12
- C All children
- No children should play here

4. How old should children be to play on this piece of equipment?

- A 2-5
- B All children
- C No children should play here
- D No children should play here

5. How old should children be to play on this piece of equipment?

- A** 2-5
- B** 5-12
- C** All children
- D** No children should play here

6. How old should children be to play on this piece of equipment?

- A** 2-5
- B** 5-12
- C** All children
- D** No children should play here

7. Should this child be playing on this piece of equipment?

- Yes**
- No**
